## Gaet Tyranski Joins BioDerm, Inc. as Company President

*Veteran Healthcare Executive to Spearhead Major Growth at Largo Manufacturer*

**Largo, January 5, 2016:** Today BioDerm, Inc., a local medical device manufacturer, announced the appointment of Gaet Tyranski as **President**. Tyranski's appointment is effective immediately.

Tyranski will be responsible for accelerating BioDerm's aggressive growth plans for 2016 and beyond. Tyranski will oversee BioDerm's diverse manufacturing and R&D portfolio as well as supporting BioDerm's B2B and B2C marketing and sales efforts.

Tyranski is a global P&L Executive with a proven track record of organic and inorganic growth, continuous improvement, customer satisfaction and employee development. He is a veteran of multiple rapid-growth organizations, including start-ups and multi-million-dollar healthcare manufacturers and service providers.

"Gaet has delivered exceptional results for next generation technologies at Synergy Health and Jabil Circuit," said Gary Damkoehler, BioDerm's Chief Executive Officer. "His expertise will help shape the thinking of one of the fastest growth medical device companies as we expand our clients to include new international markets and US health systems to improve the quality of care patients receive."

"BioDerm, Inc. is one of the most exciting companies I've seen in a long time," said BioDerm's President, Gaet Tyranski, "Joining the BioDerm family is an exceptional opportunity to expand the sales and product footprint for a truly exciting disposable medical technology that helps improve patients' quality of life. BioDerm is poised for rapid growth over the next several years and I am ecstatic about leading the team to achieve superior results for our customers and our shareholders."

Prior to joining BioDerm, Tyranski was with Jabil Circuit in progressive roles for 14 years, before moving to Synergy Health, a global sterilization services company, in 2014 where he was President, Applied Sterilization Technologies – Americas. Gaet has a BA in economics and

political science from Bucknell University and a MBA from the University of Florida. He is also a Board Member of the Florida Medical Manufacturers Consortium (FMMC).

**About BioDerm, Inc.**

Headquartered in Largo, FL, BioDerm is one of the nation's leading manufacturers of hydrocolloid products for urinary management, infection control and skin protection. BioDerm, Inc. is the manufacturer of Men's Liberty, a male external catheter designed especially for community dwelling men, the ReliaFit™ Male Urinary Device, the next generation external catheter designed for hospital use and CathGrip®, a universal hydrocolloid securement line which can help reduce tube dislodgement and infection. All BioDerm's products aim to provide a superior patient experience through added comfort and reliability.
