Urology

Product Catalog
BioDerm® is one of the nation’s leading manufacturers of proprietary hydrocolloid products for securement, urinary management and skin protection. The company challenges accepted inferior standards of care by creating products that reduce infection rates, add comfort and reliability, and vastly improve quality of life.

Innovative Solutions

**SECUREMENT**
The CathGrip® family of universal catheter securement options provides clinicians with the ability to manage a wide variety of catheters and tubes ranging in size from 3-47 Fr.

**UROLOGY**
Men’s Liberty™ and Men’s Liberty Acute™ are revolutionary alternatives to diapers, condom catheters and when medically unnecessary, Foley catheters.

**SKIN PROTECTION**
Ensure proper product application and removal with the use of BioPlus+™ Barrier Prep Wipes and FreeDerm™ Adhesive Remover.
Introducing The CathGrip Family of Universal Securement Options

The CathGrip line provides clinicians with the ability to manage a wide variety of catheters and tubes ranging in size from 3-47 Fr. Each product is based on BioDerm's proprietary hydrocolloid with features that solve a wide variety of challenges. When properly applied, these devices provide a comfortable fit and secure hold for up to seven days. The soft straps are durable for repeat positioning, perfect for continual ease of use. CathGrip can meet all your securement needs in only 11 SKUs, making it the new standard of care sought after by physicians, nurses and purchasing teams. The CathGrip family of products is exclusively distributed in the US by Medline Industries. Contact Medline at customerservice@medline.com or 1-800-MEDLINE.

PEG Protect™

Designed specifically for use with PEG tubes, PEG Protect brings our skin friendly hydrocolloid securement to long and short term PEG patients.

Features

- Secures both standard and low profile PEG tubes with ease
- Allows for regular tube rotation for traditional and low profile PEG tubes
- Reduces the risk of dislodgement and tube migration
- Provides a skin friendly hydrocolloid barrier against bodily fluid, bruising and excoriation
- Reduces potential for tube kinking
- Two piece design allows for variable securement location related to the PEG tube insertion site

SKU# 51501
Single Strap & Double Strap

CathGrip is a truly universal system that securely holds tubes from 3-47 Fr. Available in single or double straps, CathGrip provides all over securement with a skin-friendly hydrocolloid adhesive to prevent skin injuries. Soft straps are durable for repeat positioning. Sterile and non-sterile available.

Features

- Available in single or dual straps in the large size
- Hydrocolloid adhesive oval
- Hypoallergenic & not made with natural rubber latex
- Soft straps with no-slip grip
- Simple repeat positioning
- Fits all catheters from 3-47 Fr
- Durable repeat positioning
- Extended wear time, 2-3 times longer than competitors

Uses listed above are not all inclusive. May vary based on tube location, infection prevention protocols and presence of exuding wounds.

Large

Large (1 Strap)
SKU# 51350

Medium
SKU# 51301

Small (1 Strap)
SKU# 51250

Soft Grip:
- Prevents skin injury
- Positive grip on catheter
- Protects catheter lumen

Hydrocolloid:
- Moves with body
- Protects skin
- Prevents tears
**Single Strap with Wing Seal**

**Double Strap with Wing Seal**

Extends the security of our hydrocolloid base to support insertion site securement. Hydrocolloid wings form an occlusive seal that securely holds any tube from 3-47 Fr. and can help reduce dislodgement and minimize the risk of infection. Only available as sterile.

**Oval**

Designed to prevent pressure injuries and skin tearing with low-profile proprietary hydrocolloid securement, especially important when dealing with tender skin.

- Low profile oval pairs that are sized for difficult to apply areas
- Will hold securely for up to 7 days
- Available as sterile or non-sterile

SKIN PROTECTION

BioPlus™+ Barrier Prep Wipe

BioPlus+ improves hydrocolloid adhesion by up to 50%. A BioPlus+ wipe is included in most BioDerm products and is also available as a stand alone product.

Features

- No-sting
- Forms transparent, protective barrier film
- Dries faster than major competitors in lab tests
- Increases skin adhesion more than major competitors in lab tests

SKU# 52300

BioPlus+ improves adhesion of: hydrocolloids, appliances, tapes and bandages
Protects skin from: incontinence, body fluids and adhesive stripping

FreeDerm™ Adhesive Remover

Instantly removes hydrocolloid without irritation and evaporates rapidly with no residue. Allows immediate re-application of an adhesive device without washing. Available as 1oz (30mL), 3oz (90mL) pump spray or single use ampoules (1mL).

Features

- Safe and gentle for all patients
- No-sting
- Instantly removes hydrocolloid
- Flash dries in less than 15 seconds
- Reduces skin trauma from tape and dressing removal including infection risk, inflammatory damage and edema
- No harsh chemicals
- Oil and lotion free

Say Goodbye To Adult Diapers Once And For All

Staying dry and odor free shouldn’t even be a question.

The Men’s Liberty line of products are a non-invasive external urine collection device that can be used at home and on-the-go, so you can forget about bladder leakage and get back to living life on your own terms.

How Does It Work?

Men’s Liberty & Men’s Liberty Acute are made from hydrocolloid, an adhesive that creates a secure, skin friendly seal around the urinary opening. Men’s Liberty is designed for use in the outpatient setting and includes an integral collection chamber that holds up to 8 fl. oz (250mL) of urine. Patients can fill the collection chamber, which can then be discreetly emptied into a toilet through the end plug located on the bottom of the product, whenever they get the opportunity.

Features

- Has a completely external design
- Fits most male anatomy
- Keeps men dry and comfortable
- Average wear time of up to 24 hours
- Covered by most insurance policies
  (Standard deductibles apply)
- 8oz urine collection pouch can be emptied easily throughout the day
- Replaces diapers, condom catheters and when medically unnecessary, Foley catheters
- Connects directly to a leg or bed bag
Men’s Liberty™
For Outpatient Use
Men’s Liberty is the innovative alternative to traditional male external catheters. It is completely external with micro-vent and applied just once a day. This discreet, one-size-fits-most option manages men’s urinary incontinence in a safe, healthy way. More than 5 million units have been used. Covered by Medicare and over 3,000 insurance plans in the US.

Men’s Liberty™ Classic
For Outpatient Use
Men’s Liberty Classic is the innovative alternative to traditional male external catheters. It is completely external with self sealing vent and applied just once a day. This discreet, one-size-fits-most option manages men’s urinary incontinence in a safe, healthy way. More than 5 million units have been used. Covered by Medicare and over 3,000 insurance plans in the US.

Men’s Liberty™ Acute
For Acute Care Use
Men’s Liberty Acute is a male external catheter designed for institutional and hospital use. It is completely external and seals gently and securely to the tip of the penis with BioDerm’s proprietary hydrocolloid adhesive. Men’s Liberty Acute is exclusively distributed in the US by Medline Industries. Contact Medline at customerservice@medline.com or 1-800-Medline.
KindKlamp™

The KindKlamp, penis clamp is designed to temporarily stop the flow of urine through the urethra when applying Men’s Liberty. This simple male incontinence product helps men who are dribbling or leaking and are having trouble applying the Men’s Liberty device.

Features

- Made from durable plastic and ultra soft foam for added comfort
- Designed to fit most male anatomy
- No wires or metal ensures that the KindKlamp is skin friendly and can be wiped with a damp cloth without the potential of rust or corrosion
- Easy use clasp — can be closed and released with one hand!
- Curved upper arm for improved comfort
- Long lasting hinge designed for multiple cycles

SKU# 20003

Now That You Know Our Products

BioDerm provides innovative solutions for customers around the world. Safer, easy to use and cost effective, our proprietary hydrocolloid, skin prep, adhesive remover and soft strap technology is the next evolution in patient care. Join the future of healthcare technology today!

OUTPATIENT
BioDerm’s products are sold through our customer service center, based in Largo, Florida. Our friendly customer service representatives are trained to understand the conditions associated with urinary incontinence and are extremely knowledgeable about all of BioDerm’s products.

ACUTE CARE
BioDerm’s CathGrip product line is sold through a growing network of specialty distributor and direct representatives targeting acute care, long-term care and other surgical centers. The CathGrip line of products is transforming care in critical care units, interventional radiology, medical/surgical units, wound care clinics and more with solutions that help reduce the incidence of medical device related pressure injuries and catheters becoming dislodged. BioDerm’s proprietary urinary management products for acute care are currently sold exclusively through Medline as Men’s Liberty Acute in the United States.

INTERNATIONAL
BioDerm’s products are currently available for sale in over 10 countries through a network of independent distribution partners in each country.

PARTNERSHIPS
Please contact our sales team to learn more about partnership opportunities. BioDerm products are available for private label collaboration for target markets and partnerships.
